MARTEL
innovate

We are looking for a

Full Stack Developer

Keywords: AngularJS / Python

Job location: Lugano (Switzerland)

Contract: Full time ideally – possibility to arrange for it being an 80% part-time position

Start date: Q1 2018

Salary: Depending on the experience of the candidate, to be discussed

Holiday: 25 days per annum, plus statutory holidays

Job description and responsibilities

As Full Stack Developer in Martel, you will work on cutting edge technologies adopting agile and test-driven techniques. You will have the responsibility to drive the development of Web applications (front ends and back ends) in the context of IoT and Smart Cities related projects.

You will be active in a friendly international environment and participate in national and international R&D projects across Europe (and beyond from time to time). In this respect some travelling within and outside Europe will be entailed.

Qualification, previous experience and background

+ A bachelor/master's degree in computer science or a related discipline.
+ Previous experience as frontend & backend developer.

Requested Skills

+ Excellent knowledge of operating systems: Linux, Mac OS, Windows;
+ Programming languages: Python, NodeJS, JQuery.
+ Web framework: Angular, Django.
+ Creativity and open-mind ☺
+ Proactive attitude.
+ Excellent English.
+ Ability to travel when needed.

Desirable

- Experience with Agile techniques;
- Knowledge of Amazon AWS;
- Experience with Docker;
- Strong interpersonal skills;
- Other spoken EU languages.

Do you want to apply?

Send:

- your CV
- R&D portfolio (github profile link)
- cover letter (clearly elaborate on why you are the right person for the job)
- decrypted string "V nz ceboyrz fbyire" (rot13)

via email to **careers@martel-innovate.com** indicating "Full Stack Developer" in the subject.

About Martel Innovate

Based in Zürich, with offices also in Lugano, Martel is an innovative and dynamic SME specialized in the management, innovation and promotion of international Research and Development projects with a focus on advanced Internet technologies, such as 5G, IoT and Cloud.

Martel, with more than 20 years' experience in the European and Global ICT scene, includes three departments that work side by side to deliver the best quality to its customers:

- **Martel Consulting**, a department specialised in R&D Project and Innovation Management and Strategic Consultancy, focusing on the coordination of H2020 projects;

- **Martel Media**, a division specialised in dissemination, communication, marketing and community building activities at the service of ICT initiatives and projects;

- **Martel Lab**, a R&D department specialized in cloud native architectures, spanning from cloud computing infrastructures to cloud computing as an enabler in different application fields such as: Big Data, IoT, NFVI and Smart Cities.

Martel's team is an international and dynamic group of people that combine skills and expertise from different domains, including business, technological, scientific, communication and marketing sectors.
